CAREER OVERVIEW

An accomplished, hard-working developer with an extensive background working with Java, SQL Server, MySQL, Jaspersoft, HTML 5, CSS 3, Python, PHP, JavaScript and AngularJS to create responsive web applications. Recent experiences working with SQL Server and Jaspersoft Studio, as well as managing several internal and client resources, for a large enterprise application have produced a strong sense of best practices in management, BI reporting, software and database development. Previous experience as Executive Director of a not-for-profit organization has helped develop a background of solid communication and a good sense of teamwork.

QUALIFICATIONS

- Advanced knowledge of front and back end technologies
- Front end development with HTML, CSS and JavaScript
- Strong grasp of SQL Server and MySQL query writing
- Good understanding of middle-tier languages and frameworks such as Spring and Flask
- Superb analytical approach to BI reporting and query writing
- Professional communication with clients to clarify specifications
- Firm understanding of good UI / UX principles and coding standards
- Experienced with project planning and time management
